

SOLAR Load Testers

1852

100 Amp Battery Load Tester

Designed for portable professional use, the **SOLAR** 1852 tests batteries, charging systems and starting systems. Features 6 and 12 Volt modes, color-coded meter and capacity to 1000 Cold Cranking Amps.

1850

125 Amp Analog Battery Load Tester

Delivers a true 125 amp load and is calibrated to test batteries up to 1000 CCA. It features an easy-to-read color-coded meter and a graduated scale for assessing battery condition. It can be used to test 6 and 12 Volt batteries, starting and charging systems. 1 Year Limited Warranty.

1860

125 Amp Digital Battery Load Tester

Delivers a true 125 amp load and is calibrated to test batteries up to 1000 CCA. It features an automatic testing routine for easy operation – simply press the “GO” button and the tester automatically runs a battery load test and provides a result. It can be used to test 12 Volt batteries and charging systems. 1 Year Limited Warranty.

1855

800 Amp Carbon Pile Battery and System Tester

Designed for use on higher Amp 6 and 12 Volt systems, the **SOLAR** 1855 is a variable load battery and systems tester. With variable Amp load capability to 800 Amps, it tests batteries up to 1600 Cold Cranking Amps and features easy-to-read, full-size, color-coded meters.
